Treating Customers Fairly (TCF) is a regulatory framework which requires companies to consider how they treat their clients through all stages of the relationship and product life cycle. This has encouraged us to re-evaluate our company culture and to reinforce the customer-centered service deliverable on which we base all our operations.

Our FSP has always been client-focused, however, with the advent of TCF, we are concentrating more of our efforts on meeting the needs of our clients and bringing customer service to the forefront of our operations. In light of this we have implemented a TCF policy, structured according to the guidelines provided by the FSCA to ensure that we consistently deliver fair outcomes to our clients and enhance the service quality to clients. The TCF policy is available on request.
